

RECONSTRUCTION OF THE BRIDGEWATER OVAL

Seeking the appointment of a committee to control and manage the oval property in a letter to the Stirling District Council the Bridgewater Football club stated that it had arranged for a loan of £300 in order to reconstruct the Bridgewater oval. The Council resolved to inform the club that while it agreed in principle with the forming of a local committee with council representation council felt it was a little too early for such a committee to be elected and suggested that representatives of the council meet the football committee and others interested in the near future to discuss the matter.
